

Managing General Agents | Wholesale Insurance Brokers

Amusement & Entertainment Risks

If you have clients in the entertainment industry, then you're aware they know how to throw a party. Entertainment businesses often come with hard-to-place exposures that aren't all fun and games. We can help you place insurance needed to protect your clients from these exposures. No matter the size or the unique nature of your client's business, our market access and experience allows us to tailor an insurance program to fit a wide variety of needs in case property damage, accidents or injuries crash the party.
