# MISCELLANEOUS PROFESSIONAL LIABILITY

**Did you know?** Miscellaneous professional liability insurance is for claims that may result from your client's professional services or their failure to render those services. The costs of defense and judgment can be very expensive and detrimental to small businesses in particular.

Most GL policies exclude professional services, so this coverage is very important to make sure your insureds are protected. If your clients provide miscellaneous professional services to others for a fee, they have this exposure.

**(800) 878-9891**
